

Job Announcement

At the Institute for Evolution und Biodiversity (IEB), within the Department of Biology at the Westfälischen Wilhelms-Universität Münster is a permanent position of a

Scientific Staff Position (einer Studienrätin/eines Studienrates im Hochschuldienst (A13) m/w/d)

available. The teaching obligation associated with this position is 13-17 SWS, depending on other general tasks assigned to this position. The weekly working time is currently 41 hours.

An important part of the obligations associated with the position is teaching in the area of Zoology and Evolutionary Biology, in particular organizing and running modules for Bachelor of Biology, Master of Science and Master of Education in German and English. The person should be heavily involved in the statistical education of bachelor, master and PhD students in the Department of Biology. The successful candidate will also take over general tasks at the IEB depending on her/his past experience.

Besides teaching the candidate is encouraged to develop an own research program in collaboration with colleagues at the IEB and Biology Department and compete for third party funding.

Requirements for this position are an university degree and a PhD in Biology, Physics, Chemistry or Mathematics and experience in theoretical evolutionary biology (e.g. statistical methods, modelling, etc.).

To be eligible for a "Beamtenverhältnis" (German State Employee status) the candidate needs to proof employment for 3 years and 6 month after finishing her/his university study or 1 year after her/his PhD. If the requirements are not yet fulfilled, the candidate can be employed in a regular employment (TV- L E 13) with a later change of the status to a "Beamtenverhältniss". If the employee doesn't fulfill the requirements for a "Beamtenverhältniss" she/he can be permanently employed under the regular employment scheme (TV-L E 13).

The WWU is an equal rights employer and wants to increase the proportion of females in research and teaching. Applications of women are especially encouraged; women will be prioritized if they have the same abilities, skills and subject related performance, unless other personal reasons argue for another candidate.

People with special needs will be prioritized, if they can perform the required tasks related to the position.

Applications including a CV, certificates of an university degree and PhD/Doktorarbeit, teaching experience and publications should be sent by email as a single pdf file till September 1st 2020 to evolecol@uni-muenster.de.
