iDiv German Centre for Integrative Biodiversity Research (iDiv) Halle-Jena-Leipzig

Agenda – public part

Online Flexpool Recruitment Symposium

Monday, 28 September 2020

Time	Programme Item
08:45 – 09:00	Login & preparation https://uni-leipzig.zoom.us/j/95297201592?pwd=NDBTd1NNQkRWaFkzaktRNFNrSEV2QT09 Meeting ID: 952 9720 1592 Passcode: 842993
09:00 – 09:15	**Welcome** iDiv speaker (*Prof. Tiffany Knight*)
09:15 – 09:45	**Presentations of the postdoctoral research projects by PIs I** Project 1: Disentangling eco-evolutionary dynamics across temporal and spatial scales, *Dr. Renske Onstein (5min)* Project 2: How biodiversity change alters the biotic context of biodiversity-ecosystem functioning relationships - a synthesis of models, experiments and observations, *Prof. Christian Wirth (5min)* Project 3: Pathogen spillover among insect pollinator species: quantifying evolutionary processes to inform on viral adaptive potential, *Prof. Robert Paxton (5min)* Project 4: Diversity and scenario modelling of molecular markers of plant pathogens in plant, litter and soil metagenomes - DiSco Mole, *Prof. François Buscot (5min)* Project 7: Extracting spatiotemporal macroecological patterns using plant occurrence data crowd-sourced via Flora Incognita, *Prof. Miguel Mahecha (5min)*
09:45 – 10:00	**Presentations by the candidates:** Project 1: Disentangling eco-evolutionary dynamics across temporal and spatial scales *(1 candidate – Oskar Hagen, 10min per talk & 5min discussion)*
10:00 – 10:30	**Presentations by the candidates:** Project 3: Pathogen spillover among insect pollinator species: quantifying evolutionary processes to inform on viral adaptive potential *(2 candidates – Lílian Caesar, Raquel L. Costa, 10min per talk & 5min discussion)*
10:30 – 10:45	Coffee break
10:45 – 11:30	**Presentations by the candidates:**

	Project 4: Diversity and scenario modelling of molecular markers of plant pathogens in plant, litter and soil metagenomes - DiSco Mole *(3 candidates – Christina Weißbecker, Abhinav Aeron, Daniel Churchill Thomas, 10min per talk & 5min discussion)*
11:30 – 12:00	**Presentations by the candidates:** Project 7: Extracting spatiotemporal macroecological patterns using plant occurrence data crowd-sourced via Flora Incognita *(2 candidates – Verónika Ceballos Núñez, Karin Mora, 10min per talk & 5min discussion)*

Tuesday, 29 September 2020

Time	Programme Item
08:45 – 09:00	Login & preparation https://uni-leipzig.zoom.us/j/94092734823?pwd=MXRtQXNMeGkxOEJWSUhxZ09YdDJUUT09 Meeting ID: 940 9273 4823 Passcode: 796597
09:00 – 09:45	**Presentations of the postdoctoral research projects by PIs II** Project 5: Analysing plant invasions in their environmental context (iCon), *Prof. Ingolf Kühn (5min)* Project 6: Towards greener oil palm plantations – a cost-benefit approach for wildlife and farmers, *Prof. Anja Widdig (5min)* Project 8: iKNOW - Leveraging Knowledge Graphs for iDiv and Biodiversity, *Prof. Birgitta König-Ries (5min)* Project 9: iESTIMATE - Identifying ESsenTIal Molecular vAriables in Terrestrial Ecology, *Dr. Steffen Neumann (5min)* Project 10: DArwin's Naturalization Conundrum rEvisited (DANCE) – Darwin meets omics, *Dr. Sylvia Haider (5min)*
09:45 – 10:30	**Presentations by the candidates:** Project 5: Analysing plant invasions in their environmental context (iCon) *(3 candidates – Magda Garbowski, Adam Klimes, Marija Milanović, 10min per talk & 5min discussion)*
10:30 – 11:00	Coffee break
11:00 – 11:30	**Presentations by the candidates:** Project 8: iKNOW - Leveraging Knowledge Graphs for iDiv and Biodiversity *(2 candidates – Clay Palmeira da Silva, Samira Babalou, 10min per talk & 5min discussion)*
11:30 – 11:45	**Presentations by the candidates:** Project 9: iESTIMATE - Identifying ESsenTIal Molecular vAriables in Terrestrial Ecology *(1 candidate – Kristian Peters, 10min per talk & 5min discussion)*
11:45 – 12:30	**Presentations by the candidates:** Project 10: DArwin's Naturalization Conundrum rEvisited (DANCE) – Darwin meets omics *(3 candidates – Merten Ehmig, Andrea Cortegoso Galmán, Dinesh Thakur, 10min per talk & 5min discussion)*
